Telecommunications Policy

Index to Volume 12

March, June, September and December 1988

Articles – titles

The 1989 ITU Plenipotentiary and the IFRB, *George A. Codding*, **12**, 3, 234–242

Alternative NTS cost recovery plans and the bypass issue, *Brooks Albery*, **12**, 1, 36–41

C-Band DBS: an analysis of the US scrambling issue, *James C. Hsiung*, **12**, 1, 77–86

Changes in telecommunications equipment trade: the case of Germany, *Thomas Schnöring*, **12**, 2, 127–140

Deregulating telecommunications: the workers' view, *Vincent Mosco and Elia Zureik*, **12**, 3, 279–287

The economic theory of regulation and the US telecoms industry, *John T. Wenders*, **12**, 1, 16–26

Emergent markets for orbit spectrum assignments: an idea whose time has come, *Harvey J. Levin*, **12**, 1, 57–76

Feasibility of mobile satellite service in Alaska, *Alex Hills*, **12**, 4, 369–378

Generating foreign exchange in developing countries: the potential of telecommunications investments, *Heather E. Hudson and Lynn C. York*, **12**, 3, 272–278

Introducing cable television into Hong Kong: political and economic implications, *Tuen-yu Lau*, **12**, 4, 379–392

Local measured service: advantages and implementation, *Stanford L. Levin and J. Cale Case*, **12**, 27–35

New telecommunications services, network externalities and critical mass, *David Allen*, **12**, 3, 257–271

The RACE programme: the European route towards Integrated Broadband Communications, *Patrice d'Oultremont*, **12**, 2, 119–126

Technical standards: the market and radio frequency allocation, *Milton Mueller*, **12**, 1, 42–56

Telecommunication network-based services: regulation and market structure in transition, *Robin Mansell*, **12**, 3, 243–255

Telecommunications in West Germany: the transformation of the technical and political framework, *Christoph Dörrenbächer*, **12**, 4, 344–352

Telecommunications technology applications and standards: a new role for the user, *Christopher Tamarin*, **12**, 4, 323–331

US telecommunications deregulation: implications for industry structure and social welfare, *Bruce L. Egan*, **12**, 4, 332–343

US telecommunications privacy policy: socio-political responses to technological advances, *James E. Katz*, **12**, 4, 353–368

WATTC-88: restructuring the International Telecommunications Regulations, *William J. Drake*, **12**, 3, 217–233

World television trade: the economic effects of privatization and new technology, *David Waterman*, **12**, 2, 141–151

Articles – authors

Albery, Brooks, Alternative NTS cost recovery plans and the bypass issue, **12**, 1, 36–41

Allen, David, New telecommunications services: network externalities and critical mass, **12**, 3, 257–271

Case, J. Cale, see *Levin, Stanford L.*

Codding, George A., The 1989 ITU Plenipotentiary and the IFRB, **12**, 3, 234–242

Dörrenbächer, Christoph, Telecommunications in West Germany: the transformation of the technical and political framework, **12**, 4, 244–352

Drake, William J., WATTC-88: restructuring the International Telecommunications Regulations, **12**, 3, 217–233

Egan, Bruce L., US telecommunications deregulation: implications for industry structure and social welfare, **12**, 4, 332–343

Hills, Alex, Feasibility of mobile satellite service in Alaska, **12**, 4, 369–378

Hsiung, James C., C-Band DBS: an analysis of the US scrambling issue, **12**, 1, 77–86

Hudson, Heather E. and York, Lynn C., Generating foreign exchange in developing countries: the potential of telecommunications investments, **12**, 3, 272–278

Lau, Tuen-yu, Introducing cable television into Hong Kong: political and economic implications, **12**, 4, 379–392

Levin, Harvey, J., Emergent markets for orbit spectrum assignments: an idea whose time has come, **12**, 1, 57–76

Levin, Stanford L. and Case, J. Cale, Local measured service: advantages and implementation, **12**, 1, 27–35

Katz, James E., US telecommunications privacy policy: socio-political responses to technological advances, **12**, 4, 353–368

Mansell, Robin, Telecommunication network-based services: regulation and market structure in transition, **12**, 3, 243–255

Mosco, Vincent and Zureik, Elia, Deregulating telecommunications: the workers' view, **12**, 3, 279–287

Mueller, Milton, Technical standards: the market and radio frequency allocation, **12**, 1, 42–56

d'Oultremont, Patrice, The RACE programme: the European route towards Integrated Broadband Communications **12**, 2, 119–126

Schnöring, Thomas, Changes in telecommunications equipment trade: the case of Germany, **12**, 2, 127–140

Tamarin, Christopher, Telecommunications technology applications and standards: a new role for the user, **12**, 4, 323–331

Zureik, Elia, see *Mosco, Vincent*

Book reviews

The Calculus of International Communications: A Study in the Political Economy of Transborder Data Flows by Meheroo Jussawalla and Chee-wah Cheah (reviewed by Peter Robinson), **12**, 3, 292–293

Economic, Technological and Locational Trends in European Services: Report from the FAST programme of the Com-

mission of the European Communities by Jeremy Howells (reviewed by Gareth Thomas), **12**, 4, 398–399

Evolution of an Information Society edited by A.E. Cawkell (reviewed by Dean Gillette), **12**, 3, 290–292

Information Technology: A Luddite Analysis by F. Webster and K. Robins (reviewed by Margaret Bruce), **12**, 2, 195–196

Inside IBM: A European's Story by Jacques Maisonrouge (reviewed by Gareth Locksley), **12**, 3, 396–397

IT Futures . . . IT Can Work: An optimistic View of the Long-Term Potential of Information Technology for Britain by the NEDO Long Range Perspective Group (reviewed by J.B. Cowie), **12**, 1, 94–95

The Law and Economics of Transborder Telecommunications: A Symposium edited by Ernst-Joachim Mestmäcker (reviewed by Peter Robinson), **12**, 4, 394–396

Law of International Telecommunications in Canada by Nicolas Mateesco Matte and Ram S. Jakhu (reviewed by Christopher Podmore), **12**, 3, 293–294

Parallel Convergence: National Strategies in Information Technology by Erik Arnold and Ken Guy (reviewed by Margaret Bruce, **12**, 1, 97–98

The Telecom Mosaic: Assembling the New International Structure by Robert Bruce, Jeffrey Cunard and Mark Director (reviewed by Mahindra Naraine), **12**, 2, 193–194

The Telecommunications Deregulation Sourcebook edited by Stuart N. Brotman (reviewed by Christopher Sterling), **12**, 4, 397–398

Telecommunications in the Post-Divestiture Era edited by Albert L. Danielsen and David R. Kamerschen (reviewed by Barry Cole), **12**, 4, 399–400

Telecommunications in Turmoil: Technology and Public Policy by Gerald R. Faulhaber (reviewed by Marcellus S. Snow), **12**, 1, 93–94

Telecommunications: the Opportunities for Competition by Malcolm Kitchen, David Lewin and Hans Schoof (reviewed by Jill Hills), **12**, 1, 95–97

Trends of Change in Telecommunications Policy, an OECD report (reviewed by Günter Knieps), **12**, 2, 195

Conference reports/Reports

The 1989 Pacific Telecommunications Conference, Honolulu, Hawaii, 15–18 February 1988, *Marcellus S. Snow*, **12**, 2, 192–193

A comment on the Witte Report, *Rolf T. Wigand*, **12**, 2, 186–188

First International Telecommunications Regulations Conference, Amsterdam, the Netherlands, 12–13 November 1987, *David Gillick*, **12**, 2, 188–190

The ITU's Fifth World Telecommunications Forum, Geneva, Switzerland, 19–27 October 1987, *Marcellus S. Snow*, **12**, 1, 88–90

Restructuring the telecommunications system in West Germany, *Eberhard Witte*, **12**, 2, 184–186

The Sixth Annual Intelevent Conference, Geneva, Switzerland, 14–16 October 1987, *Roger Pye*, **12**, 1, 90–92

Temic provides the missing link, *Donald J. Gillies*, **12**, 1, 87–88

The Third Annual Communication Policy Research Conference, Windsor, UK, 22–24 June 1988, *Geoffrey Mulgan*, **12**, 4, 393–394

Comment

The EEC telecommunications sector: between integration and projection, *Emilio Lera*, **12**, 1, 8–12

European telecommunications policy: a US view, *Cynthia Rich*, **12**, 1, 2–7

France Telecom: preparing for more competition, *Marcel Roulet*, **12**, 2, 109–113

Information economy and the next presidency: policy options for the USA, *Indu B. Singh*, **12**, 3, 208–211

ISDN in the year 2000, *Kenneth L. Phillips*, **12**, 4, 311–317

Markets for fixed-satellite frequency allotments and assignments, *D.J. Withers*, **12**, 2, 114–118

PanAmSat's proposed entry into the UK: some implications, *J. Solomon and D. Walker*, **12**, 3, 206–207

Regulating the BT giant: 'consultation' without information, *David Rudd* **12**, 4, 318–322

Telecommunications and 1992, *Gillian Lauder and Iliana Axiotiades*, **12**, 3, 212–216

Telecommunications in Italy: in an international context, *Giuliano Graziosi*, **12**, 4, 302–310

Towards a European telecommunications community: implementing the Green Paper, *Karl-Heinz Narjes*, **12**, 2, 106–108

US telecommunications: searching for the optimum policy, *Manley R. Irwin*, **12**, 1, 13–15

Rejoinder/Letters to the editor

A reply to de Fontenay *et al*, *David Gabel*, **12**, 3, 288–289

Setting the record straight on MSS, *Olof Lundberg*, **12**, 1, 92

Publications

12, 2, 201; **12**, 4, 409–410.
